URBAN

unveils the city and its secrets

URBAN unveils the City and its secrets

Conceived and promoted by **dotART**, Trieste's cultural association that works within the field of photography and visual arts, the photo contest **URBAN Photo Awards**, now in its 12th edition, presents itself in the year 2021 as an international window for professional and amateur photographers.

URBAN's philosophy has always aimed to praising the **quality and talent** of these photographers to which it offers an international platform in order to give them the opportunity to be known through: the international **URBAN Photo Awards** contest, the editorial project **URBAN unveils the City and its secrets** along with dozens of photographic exhibitions around the world (Berlin, Budapest, Krakow, Milan, only to mention a few cities).

It's an initiative that since the beginning has continued to register new records of participants. In the year 2022 alone, more than **10.000 photos** are in competition, **400 projects** and **over 100 books**, for over **2,800 participants** from all over the world.

URBAN is mainly **street photography**, the art form which recounts everyday life and its infinite facets. Visual moments that sometimes reveal more than what they would usually show: unknown aspects of society, life stories, hidden angles within urban spaces, contrasts and contradictions, celebration of the beauty or descriptions of the urban decay.

Street photography is timing, anticipation, sixth-sense, sensibility or it's simply waiting for that specific instant in which one will compose the shot which will return that fleeting fragment of everyday life, captured and transformed into a unique instant without end. Small stories from daily lives condensed in a split second can sometimes describe an entire historical time-period. Shots of deep pathos, sometimes may seem mundane yet rich of points in reflections, magic tricks of lights and colours, unexpected dreamlike situations that were almost planned to be presented to a spectator, socially intended or just to be narrated, images similar to a small lookout to parallel worlds that reveal and allow themselves to be captured in that single and unrepeatable click.

The photos that participated in the URBAN Photo Awards 2022, 13th edition, have been reviewed and selected by a jury of excellence chaired by Italian photography legend **Nino Migliori**, together with **Shobha** and **Susan Meiselas**.

URBAN unveils the City and its secrets, vol.#08 collects a selection of classified at the URBAN Photo Awards 2022 contest, divided and narrated in the following categories: **People, Spaces, Creative, Streets**. Authentic and immediate images, brought together by an element at times explicit or at times barely indicated, all together offer an organic collage of the City and its secrets.

URBAN svela la Città e i suoi segreti

Ideato e promosso da **dotART**, associazione culturale di Trieste che opera nel campo della fotografia e delle arti visive, il concorso fotografico **URBAN Photo Awards**, giunto alla undicesima edizione, si presenta anche nel 2020 come vetrina internazionale per fotografi professionisti e amatoriali.

La filosofia di URBAN è da sempre la valorizzazione del talento e della qualità dei fotografi ai quali offre un palcoscenico internazionale per dar loro l'opportunità di farsi conoscere attraverso: il contest internazionale **URBAN Photo Awards**; il progetto editoriale **URBAN svela la Città e i suoi segreti** e decine di mostre fotografiche itineranti nel mondo (Berlino, Budapest, Cracovia, Milano, solo per citare alcune città).

Un'iniziativa che, sin dalla sua nascita, continua a registrare nuovi record di partecipazione. Solo nel 2022 oltre **10.000 foto** in gara, **400 progetti** e più di **100 libri**, per oltre **2.800 partecipanti** da tutto il mondo.

URBAN è principalmente **street photography**, la forma d'arte che racconta la quotidianità e le sue infinite sfaccettature. Istanti visivi che spesso svelano più di ciò che mostrano: aspetti inediti della società, storie di vita vissuta, angoli nascosti degli spazi urbani, contrasti e contraddizioni del tempo, celebrazioni della bellezza o cronache del degrado urbano.

La street photography è tempismo, previsione, sesto senso, sensibilità o semplicemente l'attesa di quell'attimo

in cui comporre l'inquadratura che restituirà quel fugace frammento di quotidianità, catturato e reso unico in un istante senza fine. Piccole storie di tutti i giorni condensate in una frazione di secondo possono raccontare un intero periodo storico. Scatti talvolta densi di pathos, talvolta in apparenza banali ma ricchi di spunti di riflessione, magie di luci e colori, situazioni inaspettatamente oniriche quasi progettate per essere presentate allo spettatore, intenti alle volte sociali alle volte narrativi, immagini simili a squarci su mondi paralleli che si rivelano e si fanno catturare in quell'unico e irripetibile scatto.

Le fotografie che hanno partecipato a URBAN Photo Awards 2022 sono state visionate e selezionate da una giuria di eccellenza presieduta dal decano della fotografia italiana **Nino Migliori**, assieme a **Shobha** e **Susan Meiselas**.

URBAN unveils the City and its secrets, vol.08 raccoglie dunque una selezione di immagini classificate al concorso URBAN Photo Awards 2022 suddivise e narrate nelle categorie **People, Spaces, Creative, Streets**. Immagini autentiche e immediate, accomunate da un elemento a volte evidente altre appena accennato, che nell'insieme offrono al "lettore" un collage organico della Città e dei suoi segreti.

dotART is an Italian cultural association that promotes and offers visibility to professional and amateur photographers since 2009, on both national and international grounds, throughout exhibits, courses, workshops, editorial projects, competitions with prizes and other initiatives.

The main projects proposed by dotART are:

- **URBAN Photo Awards**, an international photographic contest that since 2010 has been seeking talent and quality among professional and amateur photographers, offering them an international platform where they can be known. Each year, URBAN receives thousands of photos in competition and hundreds of participants from all around the world;
- **Trieste Photo Days**, international festival dedicated to urban photography since 2014 while it explores the urban ambience and the humanity which populates the area, throughout photography and its expression which capture geometries, views, contradictions;
- **Exhibit Around**, a platform dedicated to the selection and the promotion of editorial and authorial exhibition projects. From 2022 it's also a cultural association.

dotART è un'associazione culturale che dal 2009 promuove e dà visibilità a fotografi professionisti e amatoriali, sia sul territorio che all'estero, attraverso mostre, corsi, workshop, progetti editoriali, concorsi a premi e altre iniziative.

I principali progetti di dotART sono:

- **URBAN Photo Awards**, concorso fotografico internazionale che dal 2010 ricerca talento e qualità tra i fotografi professionisti e amatoriali, offrendo loro un palcoscenico internazionale per farsi conoscere. Ogni anno URBAN vede migliaia di foto in gara e centinaia di partecipanti da tutto il mondo;
- **Trieste Photo Days**, festival internazionale dedicato alla fotografia urbana che dal 2014 esplora l'ambiente urbano e l'umanità che lo popola, attraverso la fotografia e le sue espressioni che catturano geometrie, scorci, contraddizioni;
- **Exhibit Around**, piattaforma per la selezione e promozione di progetti autoriali espositivi ed editoriali. Dal 2022 è anche APS (Associazione di Promozione Sociale).
